Jacquet **Brossard**

Limagrain
de la terre à la vie

1400
employees

6 plants in France
+1 in Belgium

Context

Partnership Jacquet Brossard / ADEME - « IAA témoins » operation leaded by the ADEME in 2018
19 industrial plants selected

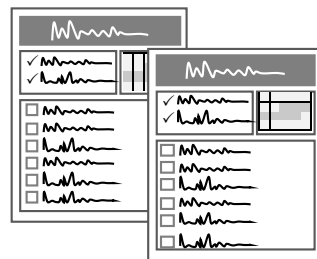

Objective : demonstrate that agri-food industries can reduce food loss while saving money

Methodology

DIAGNOSTIC

ACTION PLAN

SUPPORT

7 500 euros / plant, 6 500 euros paid by the ADEME

3 main actions

Reduction of the heels of
bread crumbs excluded
by slicing (-8mm)

- 50 T of waste / y

Optimisation of end-of-
series markings **by the**
use of scrap

- 6 T of waste / y

Systematic **unpacking of**
packaged losses

60 T valued/y

A winning operation on all fronts

60 t less food loss per year

- 10 % of waste

30 K€ per year

- 10 % of food loss costs

40 t CO² saved per year

9% reduction in the GHG footprint of the plant
