

WORKSHOP 2B - CIRCULAR CITIES AND REGIONS

CHAIR: PHILIPPE MICHEAUX NAUDET, ACR+

MAIN THEME

[Link](#) to ECESP Leadership Group reflections on cities and regions

The focus of the workshop will be “**going beyond waste management indicators for circular economy in cities and regions**”.

KEY QUESTIONS

- i. *What scope and what limits to a monitoring framework for cities and regions?*
- ii. *How to address the gaps in terms of lack of information (what happens after waste is sorted/collected, how to facilitate access to socio-economic data, how to address the fragmentation of information in particular for re-use and waste prevention)?*
- iii. *How to make the link between circular economy monitoring and key political objectives of sustainable development (e.g. climate and biodiversity)?*
- iv. *How to ensure that cities and regions are able to use the available tools?*
- v. *How to make sure that those monitoring tools and approaches are translated into concrete measures and operational objectives?*

PROGRAMME

TIME 11:45 – 12:45 (CET)

As this workshop will be held on MS Teams, please register [here](#) for the sub-sessions before joining.

- **Introduction** on the topic and instructions for parallel sub-sessions
- **Parallel Sub-session 1: CE monitoring and policy framework in cities and regions**
 - Presentation on Urban Agenda based framework of indicators for policy makers
 - Presentation on the implementation of LCA approaches in regional policies

- **Parallel Sub-session 2: CE monitoring tools and approaches applicable at local and regional level**
 - Presentation on the results of the 1st phase of the More Circularity Less Carbon campaign
 - Presentation on what (systematic) approaches of how to collect indicators and measuring CE in cities and regions (technological or non-technological)
- **Feedback from sub-sessions for draft recommendations and conclusions**
