Industrial Symbiosis, a path towards green growth

Organisation or Company:

INSIGHT- Fostering Industrial Symbiosis through the development of a novel and innovative training approach

Type of organisation or company:

Private company,
Business,
Business Association,
National authority,
Multi-stakeholders
association,
Research institute

The main objective of the INSIGHT project is to develop a new professional profile: the **industrial symbiosis facilitator**, who helps transition towards the design of a common curriculum and learning approach.

Crush Cocoa - a new ecological paper from cocoa beans

Organisation or Company:

FAVINI

More case studies from this organisation or company

Type of organisation or company:

Business

Country:

Italy

In line with a circular economy strategy, the company Favini and chocolatiers Domori have developed an industrial symbiosis system to produce the ecological paper Crush Cocoa from cocoa processing waste.
